INTRODUCING: PRECISION END TRIM (PET)

Build faster and smarter with PET I-Joists.

Skip the measuring and cutting hassle with our new, state-of-the-art technology, now available at our TIM-BR-FAB Manufacturing Plant!

- **Faster Construction:** Spend less time measuring and cutting, and more time building!
- **Reduced Waste:** Minimize waste from inaccurate cuts.
- **Simplified Process:** No need for complicated calculations - your I-joists arrives ready-to-use.

FROM BLUEPRINT TO SAW

Frame Faster, and Smarter! Our PET I-Joist service delivers pre-cut I-joists in exact sizes, saving you valuable time and minimizing wasted materials on the jobsite.

- **With PET I-Joists, you get exceptional precision.** Each board is meticulously cut to exact lengths within a strict tolerance, typically 1/32" or less.
- **Every PET I-Joists features perfectly square ends,** ensuring a seamless fit during construction, which translate to faster assembly and a professional-looking finished product.

YOUR LUMBER PARTNER

Get More Value from Us. By choosing to work with McMunn & Yates, you can do more with every project!

With our state-of-the-art Weinmann PET Saw and expertise, our team can help you streamline your projects and maximize your operation efficiencies.

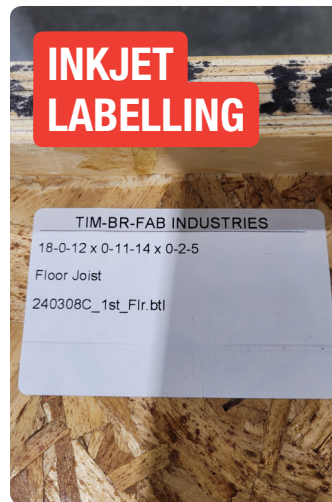

BUNDLED FOR DELIVERY

Skip the Bundling Hassle. Once your I-joists are precision end-trimmed, we take care of the bundling for delivery. This means:

- **Streamlined Construction:** Bundled I-joists are easier to transport and install, saving you valuable time.
- **Reduced Waste:** Precision cutting minimizes wasted materials on the jobsite, lowering your environmental impact.
- **Cost Savings:** Less waste translates to less money spent on waste removal fees.

INKJET LABELLING

Simplify Installation with Crystal Clear Instructions! Each precision end-trimmed I-joist comes with a clear advantages:

- **Labeled for Easy Assembly:** Every I-joist boasts an inkjet-printed position number, making identification and placement a breeze.
- **Foolproof Installation:** We include a color-coded installation plan that guides you effortlessly through the assembly process.

Building a strong foundation has never been easier! We can help you ensure an efficient and error-free project.
